THE

ELECTRICAL WORLD.

A WEEKLY REVIEW OF CURRENT PROGRESS IN ELECTRICITY AND ITS PRACTICAL APPLICATIONS.

Vols. VII. and VIII.

From Jan. 2, 1886, to Dec. 25, 1886.

NEW YORK:
W. J. JOHNSTON, Publisher,
168-177 POTTER BUILDING.

INDEX TO VOLUME VII.

* Illustrated articles. The weekly Departments are not indexed.

REVIEWS OF NEW BOOKS.

"The Mathematical Theory of Electricity and Magnetism" - 24
"Dynamo-Electric Machinery" - 24
"Annuaire du Bureau des Longitudes pour 1886" - 24
"Thunder and Lightning" - 102
"Wonders of Acoustics" - 102
"Proceedings of the National Electric Light Association" - 102
Proceedings of the Seventh Annual Meeting of the National Telephone Exchange Association - 114
"Electric Railways" - 126
"Formulaire Pratique de l'Electricien" - 154
"Precautions on Introducing The Electric Light" - 164
"The Electric Light in Workshops" - 164
"Electric Lighting—its Present Condition" 164
"L'Annuaire de l'Observatoire de Montsouris" - 186
"Electro-Deposition" - 292
"Traite Pratique d'Electricite Industrielle" 292

CORRESPONDENCE.

Air telegraph system, The Edison - 180
Ampère-volt solution, The - 180
Arc lamp shunt coil - 120
Battery, Two circuits from one - 108
Battery and line - 193
Battery materials, The relative working value of - 265
Battery materials, Note on the relative working value of - 242
Battery practice - 229
Batteries, closed circuit - 120
Can the efficiency of a motor be as high as that of a generator? - 142
Competitive test of the Edison and Weston dynamo-electric machines - 74
Condensers, imperfect - 181
Corn cure, The electrical - 265
Diagrams, The hand book of electrical - 74
Dynamo-tests, The Franklin Institute - 133
Dynamo and the motor, The - 120
Dynamos, Series, shunt and compound - 229
Electricity is an element, Alleged proof that - 226
Electro-magnets, The distribution of magnetism in - 142
Electro-motors, The efficiency of, a problem - 166
Hanging of lamps across the street, The - 192
Horse power and volt ampères - 229
Illumination of incandescent lamps, Reducing the - 265
Incandescent electric light, The salient points in the history of the - 95
Incandescent lamp circuit - 120
Incandescent lamp, The invention of the 108
Induction coil for multiple-contact telephone transmitter - 204
Induction coil in telephones - 164
Induction coil telephone - 146
Jamin magnets - 265
Jenney plants, Engines for - 205
Journalism, Fair and independent - 297
Lightning rod, The best kind of - 193
Litigation, Electrical gas-lighting - 287
Measurements, Some light on the Franklin Institute friction - 192
Mechanical telephone exchanges - 60
Mechanical telephones and exchanges - 74
Misguided reader, A - 54
Motors, The efficiency of electric - 193
Motors, Running small - 74
Mr. Dickerson, A reply to - 40
Mr. Edison and the incandescent lamp - 146
Nipher affidavit and the New Orleans telephone suit - 192
Parallel telephone wires - 146
Patents and pronunciations, Dynamo - 193
Power, electric, The present and future of 296
Self-induction, The Hughes experiment in 166
"Severe, ascetic accuracy" - 131
Shocks, Medical treatment for electric light 265
Silvey induction telegraph - 204
Sounders in circuit, Two - 39
Telephones, Priority of invention in mechanical - 46
Telephone receiver, The Eaton - 46
Tests defended, The Franklin Institute - 180
Tests, The Franklin Institute dynamo - 192
Tests, The Franklin Institute - 109
Tests, The Franklin Institute - 47
"Things that are Cæsar's, The" - 10
Thomson-Houston Company in 1885, The business of the - 19
Tests on incandescent lamps at Philadelphia, Franklin Institute - 180
Winding for dynamos - 186
Wire for lighting, Sizes of - 193
Volts and ampères - 193

TELEGRAPH.

*America, A history of the telegraph in - 93
Baltimore & Ohio system in the South, The 229
Bills, The State department's telegraph - 205
Blunder, A costly Western Union - 154
Cable rates, Cuts in - 211
*Cable recorders, Some novel improvements in - 292
*Cable working, An improved method of - 246
California, The Western Union Company in 217
Canada, The Western Union in - 247
Canadian telegraph lines, reported amalgamation of - 234
Canadian telegraphs - 205
Carrier pigeons and telegraphs in war time - 236
Commercial Cable Company, Supporting the - 234
*Condenser in telegraphy, The - 29
Copyrighted cable dispatches - 168
Cut in cable rates, The - 187
*Cuttriss siphon vibrator, for ocean telegraph cables, The - 297
Danish telegraph and telephone statistics - 176
Dispatch, Failure to send - 205
Earth currents in the Ben Nevis Observatory telegraph cable - 126
Fight, A triangular telegraph - 14
Flags, Signal service - 182
Gladstone's home rule speech, telegraphing 201
Goodsell suit against the Western Union, The - 57, 144, 247
Honors to an early telegrapher - 260
Induction, The telegraph - 152
*Instruments, Some improved telegraph - 248
*Insulating overhead wires - 186, 200
Lighthouses and telegraph stations, Deep sea - 66
*Messenger box, A new ten-call - 34
*Messenger box, A new return signal - 54
Messenger boys, The rewards of smart - 264
*Messenger call box, New - 9
Messengers, Wide awake Chicago - 24
Mexican cable rates - 137
"Mob of millionaires," The Western Union's - 246
Moving trains, A new system of telegraphing to and from - 54
*Moving trains, The various methods of telegraphing to and from - 103
*Muirhead's improved cable duplex system 34
Newspapers coerced by the Western Union 152
Okonite cables for Chicago, Heavy - 60
Overhead wires, The best location for poles and - 141
Parcelle system of multiple telegraphy, The 103
Philadelphia, A likely cable for - 71
*"Phonoplex" or "Way Duplex," The Edison 177
Poetry by cable, Editing - 39
Pole tax, The Philadelphia - 178
*Police alarm system for New York, A - 276
Postal telegraph bill, The Cullom - 6
" " property, Proposed sale of 271
President's love telegram, The - 261
Press, Telegraphy and the - 14
*Printer, A new - 119
Railroad telegraph lines, The - 131
Receiver Farnsworth's suit for $2,000,000 damages - 276
*Register, A new - 179
*Reid's "Telegraph in America" - 153
Ross, Death of Mr. Charles W. - 166
*Selenium cable recorder, A new - 14
Sending hosiery by telegraph - 4
* Sending sketches by telegraph - 201
*Sensophone or touch-sounder, The - 44
Siam, Telegraphers in - 35
Signal Service expenditures, Trouble over 54
*Signal stations, Ocean - 115
*Sounder, A novel - 275
Standard underground system - 54
Stearns duplex suit, An important ruling in the - 9
St. Louis pole tax, The - 71
*Steno-telegraphy - 187
Stokes objectionable, Mr. - 29
Storm, Wires destroyed by - 239
Subway commissioners, A proposition to the Brooklyn electrical - 67
Suit against the Western Union for $2,000,000, The - 164
Tapping, More wire - 212
Tapping, A private wire - 166
Taxation, Petitioning against capital stock 107
Taxes, The Western Union pays its - 128
Telegram, A delayed - 6
Telegrams are rare, Where - 48
Telegraphers' Mutual Benefit Association - 78
Telegraphers' Aid Society, The - 131
Transmission of money, responsibility in telegraphic - 142
Two million dollar damage suit, The - 240
Type-writer and the telegraph, The - 126
Underground cables for Philadelphia - 199
Underground wires, The question of - 240
Underground wires in Brooklyn, Report on 168
Underground wires in New York, Official report on - 210
Underground wire problem, The New York 264
Underground wire system for New York, An 35
*Underground system, A novel - 36
Underground work in Chicago - 186
United Lines litigation - 66
Western Union Company, The financial condition of the - 284
Western Union's "Peace and Good Will," The - 9
Western Union quarterly earnings, Small 131
Wired love, The danger of - 68
Women as telegraph operators - 296

TELEPHONE.

*Advances in telephony, Some recent - 237
Anti-induction cable, An, telephone - 191
*Apparatus, Recent improved - 253
Arkansas, Telephonic operations in - 176
Bell affidavit, The - 254
Bell company, A victory for the - 19
Bell company, One of the moves of the - 46
